Komatsushima City, where the bright and forceful sun shines down; greenery mountains embrace our hearts with peaceful serenity; interminable deep blue sea glints; and the pure natural water is abundant. With the arrival of the new century, the city is about to set sail to the world beyond the watery wilderness. The city is now putting on the run leading to the future for a waymark as "Creation and Succession of Prosperity, Serenity and Brilliancy," aiming to form a community where visitors to the city as well as the citizens can hold communication each other with a smile, grow in prosperity, and be inspired.
